

Product name	15 times 1.0mm PE foam tape	Temperature	23±2℃	Humidity	65±5%
Total Thickness	1.0±0.05		mm		
Pressure Roller	2		kg		
Peel away speed	300		mm/min		
Carrier	PE foam				
Glue	Acrylic pressure sensitive adhesive glue				
Release material	Release film/paper				
Test Parameter	Test data			Units	Test standard
	Methods	A-side	B-side		
J-DOW	J-DOW	11	10	# steel ball/100mm×100mm	GB/T4852-2002
180° release force/N		≥15		N/200mm×25.4mm	GB/T 2792-1998
Permanent adhesion		≥24		h/1kg/25.4mm×25.4mm	GB/T 4851-1998
Tensile strength	1.2-1.32			Mpa	GB-7753-87
Elongation	284-299			%	GB-7753-87
Remark					
Lister				Audit	

表单号：F-QA-QP16-004A0

Area application:

Mainly industrial application.

This tape is used for high-resistant connection of surfaces from different materials during the industrial application.

It is also used for connection with difficult maintenance conditions (vibration, a ggressive environment, temperature deviations) , for instance, for fastening of balancing loads to the wheel discs.
